Bülach - OUR city

Welcome

The advantages of «in the countryside» and «right in town» are ideally combined in Bülach. A high quality of life, pristine nature, broad choices for work, education, leisure, health and living, good transport connections and the close vicinity to the airport are characteristic traits of our city. With a population of more than 23'000, Bülach is also the principal town of the correspondently named District and provides numerous services for the whole region.

The historic centre of Bülach deserves special attention. Its many attractive shops make it perfect for a leisurely stroll and shopping. From our city centre through the Kasernenstrasse to the train station, a wide variety of specialty shops can be found. In and around the historic centre there are plenty of available parking spaces.

The best way to discover Bülach is on foot: in the historic centre you will find the Rathaus (City Hall), with its impressive gabled facade, which has decorated the historic centre since 1672. Many other buildings have a long history, and the well-preserved parts of the old city walls give us an idea of what Bülach must have looked like in times gone by.
