## Early language support in the city of Bülach Language level assessment 2024

Dear parents

Dear legal guardians

Your child "**Name of Child**" is expected to start nursery in August 2025.

To ensure a good start at nursery, it is important that the children understand the teacher and the other children and are able to speak to them in German.

The city of Bülach wants to give all children the **same chance** when starting nursery. To facilitate this, in January 2024 the city of Bülach is carrying out a language level assessment for **all** children aged between 2.5 and 3.5 years.

Since as parents/legal guardians, you know your child best and are best able to assess your child's language knowledge, you have received a **QR code** from us for an **online questionnaire**. The questionnaire is available in 14 languages (Albanian, Arabic, Bosnian/Croatian/Serbian, German, English, French, Italian, Portuguese, Russian, Spanish, Tamil, Tigrinya, Turkish, Ukrainian).

You can complete the questionnaire for "**Name of Child**" **online**. To do this, enter this "**Code**".

If you would prefer a hard copy of the questionnaire, you can contact the city of Bülach on 044 863 17 65 or download it online using the following link

<https://www.buelach.ch/themen/soziales-gesundheit/koordinationsstelle-fruehe-foerderung/sprachstandserfassung>

Please complete the online questionnaire by **2 February 2024**.

**Important:** Even families who speak (Swiss-) German are asked to complete the questionnaire and return it. The data will be used for statistical purposes.

Need help completing the questionnaire or have questions about the language level assessment? We can help you to complete the questionnaire and answer your questions. You can call us on **044 863 17 65** or contact us by **email (sabine.ambord@buelach.ch)**.

After reviewing the questionnaire, we will advise you of your child's language level and suitable language support options. The assessment of your child's language level has no influence on the nursery allocation.

Your information will be assessed by Basel University in an anonymised manner. No personal data will be published or shared.

Thank you for your valuable cooperation!

Kind regards

Sabine Ambord  
Early Intervention Coordination Office
